Milton H. Welling was born in Davis county but has spent the greater part of his life in Boxelder county. He has had two years' experience in the war. He knows the conditions "Over Here" as well as those "Over There." He knows the legislative needs of not only Utah and the United States, but the conditions in the war-ravaged countries of Europe as well. Milton H. Welling is not only a statesman, but a toiler and knows the views and needs of the toiler. He has proven by his record in Congress that he is with the president and the government.

Not to return him to Congress would be a slap at the President at this time, but it would also offer encouragement to the Kaiser to hold out a little bit longer in his abdication.
